AMERICAN RECEIVES TREATMENT

Dr. Stutz, of Ohio, Writes of Dr. Friedmann's Tuberculosis Serum

An American patient has been taking the treatment of Dr. Friedmann for tuberculosis. He is Dr. Otto Stutz of Upper Sandusky, O. Here is the account of Dr. Stutz's experience in his own words.

"I have been a victim of tuberculosis for two years. In desperation I came to Berlin hoping to find a cure for myself and for my tubercular patients in Ohio. Dr. Friedmann gave me an injection of his serum in the thigh 16 days ago. I suffered no inconvenience except for a slight soreness lasting about a week. Within four days after the injection the pain in my lungs began to lessen. My weight has increased six pounds. My appetite, which has been very poor the past six months, has become ravenous. I climb four flights of stairs daily to my room, which was an impossible feat for me three weeks ago. I can only say that something little short of marvelous has befallen me. I do not know whether Friedmann will give me a second injection as I am doing so well, but I feel sure I will be able to leave for home on March 1, if this improvement continues. I shall be entirely cured, I think at that time.

"I cannot bring any Friedmann germs home with me, but I think it will soon be available for all doctors in the United States.

"From what I have seen of Dr. Friedmann's germ I would give it to my patients in Ohio with delight. I make this statement with the greatest care, fully realizing that it would be criminal to raise false hopes in American sufferers. My message to American doctors is to withhold criticism of Dr. Friedmann's treatment until they get the facts about it.

J. H. Hubbard returned back to Barbourville to finish up on the grand jury.

T. G. Hammons left Wednesday morning for Barbourville to do some business.

John Markle returned home from Bell where he has been working for the Asher Coal Co.

Gale Murphy don't care for expenses you know, for he got a hair cut and a shave the other day.

E. C. Mills one of our merchants of Scalf, went to Flat Lick Wednesday to bring in some coffee and sugar.

Obie Samis, of Hammond, Ky., and Nancy Bargo, of Scalf were married a few days past.

There is going to be some peddling going on up here, as I saw a wagon full of chicken coops go up Wednesday morning--look out chickens for you will be caught.

Squire Nashby Mills said he was about through clearing and cutting briars as he began early on his job.

Jimmie Brown and wife of Clay was visiting friend of Scalf this week.

Milt Scalf is having lots of friends to visit him since they have heard he was going to move away.

L. C. Taylor is enjoying a considerable life here.

It seems as though we will have lots of candidates in the field for magistrate, to be voted for at the election.

Andrew Brock left for Pineville last week.

Gaynor Outlives Man Who Shot Him.

TRENTON, N. J., Feb. 3.—James J. Gallagher, the man who shot Mayor Gynor of New York nearly two years ago, died today at the State Hospital for the Insane in this city. He had been at the State Hospital since January 28, 1912, having been transferred there from the New Jersey State prison where he had been sentenced to serve twelve years.

Tilford Jones Candidate for Sheriff in Laurel County

So our old friend Tilford Jones is a candidate for sheriff in Laurel County. The following article in Monday's Lexington Leader will be of interest to his many friends here: "The announcement yesterday that Tilford Jones will this year again manage the Richmond Pioneers elicits the latter information that Jones is now a candidate for sheriff of Laurel County, Kentucky, his home county, and may decide to retire from baseball this year. The election does not come off until fall, but Jones figures he may have to do a little electioneering during the hot summer days, lest his would be constituents forget he is in the race. He is said to be the favorite Republican candidate, which is to say that he is the favorite candidate since Laurel County in the political league usually wins the pennant flying a Republican banner. Jones has not yet definitely decided whether he will remain in the mountains during the summer or come out in the Blue Grass long enough to lead the Pioneers in their dash for the pennant."

Tilford is well known here and has a large number of friends who would be glad to hear of his election to this office. He is a native of Laurel County and has always been popular there and will run a good race. Here's to you Tilford, and may you bat 1000 in this political race, and in the home stretch next fall we hope that you have such a lead that you can walk in from third and win without an effort.

CLEANING UP

Citizens of Breathitt County Hold Mass Meeting to Assist in Prosecution of Violators

Judge Allie W. Young opened court, at a special term of the Breathitt Circuit Court at Jackson Monday and which is expected to mark an epoch in the history of the county. A mass meeting of citizens backing the clearing up of affairs was called to precede the opening of the court's session.

For years the Commonwealth's Attorney has found it almost impossible to obtain convictions in cases in which certain men were involved, because of their ability to prove an alibi every time they were brought into court. Indictments charging perjury against some of these professional alibi witnesses are to be asked.

The Jackson Civic Betterment League is taking a prominent part in the proposed cleaning up of the county that is expected to be made during the special term of court at which Judge Young will preside.

The notice of the league, calling on the people to meet as follows: Jackson, Ky., Jan. 26th 1913.

"Monday, February 3rd, 1913, to be the greatest day in the history of Breathitt County, are called to meet in the court-house at Jackson, for the purpose of inaugurating a crusade against all forms of crime and lawlessness, and especially the illegal sale of liquor, and to lend aid to the officers of the county in discharging their duties.

"The Civic Betterment League was organized here less than six weeks ago and great results have been accomplished in Jackson. We want the good work to extend to every nook and corner of the county that the women and children may feel the beneficial results.

"Every good citizen is earnestly urged to be present and lend his influence and support to the upbuilding of this community. If you are a good citizen, come and bring some of your neighbors with you, as this will be an occasion never to be forgotten.

"CIVIC BETTERMENT LEAGUE"

Ground Hog Day

According to the weather prognosticators last Sunday was "ground hog day" and if there are anything in "signs" we are due to have six weeks more of bad weather. The sun shone Sunday and if the ground hog failed to see his shadow it was his own fault. So it is back to his fair for another six weeks.

Income Tax

WASHINGTON, Feb. 3.—The income tax is now one of the provisions of the constitution of the United States, the Wyoming ratification today of the income tax completing the necessary number of States voting for its adoption. The new amendment is the sixteenth change in the constitution since its original adoption.

Congress will now enact a law to levy the tax and it probably will become effective during the extraordinary session to be called by President-elect Wilson in March. The new law probably will supercede the corporation tax and provide for a tax on all incomes above \$5,000. Congressional leaders estimate that an income tax will bring in about \$100,000,000 a year to the government. Now that the tax is provided by the constitution the proposed excise tax will be dropped by the Democrats.

To the Citizens and Voters of Knox County

I am a Republican candidate for the nomination for County Judge of Knox County subject to the will of the people and primary August 2, 1913. I enter this race after a long solicitation of many friends all over Knox County, and I am before people on that merit and principle.

It is true that there is some division in politics in Knox County and even in this great nation of ours, and while I am a Republican and always have been and enter this race as a Republican and on the true principles of its platform, yet I have not a word to say against the suffrage of any man how he might cast his political affiliation. But I enter this race as a man and on principle, pledging myself if nominated and elected that I will be a servant of the whole people of Knox County and look after the affairs of the county and the people the very best I can regardless of politics or political affiliation.

The Farmers, Miners and laboring men are the big wheel in Knox County today and from their honest toil and sweat the individual, company, or corporation, banks and merchants grow and if I am elected I shall strive to see that every citizen shall have the same fair and impartial representation from my hands, one to another.

I think I know the needs of the people in general, as I am a country man and a farmer and reside on the Stinking Creek section of Knox County and I know what honest toil is and I think I know the protection the people need. As to the qualification, I think I possess them. I served the county as Justice of the Peace four years and I always tried to vote to the best interest of the people. That is of political record and an open book open for inspection at any time in the county Clerk's office at Barbourville. There the "yess" and "nays" can be seen.

I live in a section of the county that has always stood by and supported men from various localities of the county and men for various offices ever since Knox has been a county, and the Flat Lick and Stinking Creek section has never had the pleasure of a County official with the exception of one some thirty five years ago.

I now enter this contest if there should be one, at the command of many friends and ask the support of all. And as I enter the race or seek the nomination I do it with a spirit of fairness and rights towards every citizen of Knox County.

The legislature of Frankfort has made a law that all parties shall hold their primary on the same day and in the same place and with the same election officers, equally divided Republican and Democrats and have set the day in the law that is the first Saturday in August, and the same law requires candidates to circulate nomination papers to secure not less than 3 per cent and not more than ten per cent of the total vote of the county and requires this circulation not to be ninety days prior to the primary, and the same law requires a filing of these papers at least thirty days prior to the election day with the clerk of the county court.

I shall circulate these papers at the proper time and I hope in the meantime to meet each citizen of the county and discuss the issue with you fairly and squarely, and I hope to see the voters of the county and there make plain the protection I shall offer to Knox County and her citizens.

I earnestly solicit your support.
Yours respectfully,
Thos. G. Hammons.

We have this week the announcement of Thos. G. Hammons, of Sealf, who is a candidate for County Judge on the Republican ticket. He is one of the best known citizens in this county and promises if elected to give a square deal to all, and we feel sure from what we know of Mr. Hammons that he would make a good official. We like his politics, and he does not hesitate to tell where he stands.

The good women of this city composing the Civic League have begun early on their campaign for funds to be used to beautify Harbourville and on next Saturday evening at Union College will give an entertainment for this purpose. There will be a variegated program which promises to include features never before produced in this city, besides musical numbers of high class, and the entertainment will be well worth the price of admission. Here is a chance for all to help a deserving cause and yet get your money's worth. Our idea is that we had all better turn out at this time in full number and help fill the treasury while we get a show for our money for if we do not they will get us later when we will not have a show for our money. YOU be there and bring some one with you and fill the chapel to standing room.

TRUSTEES AND K. E. A.

The plan to add a department of trustees to the Kentucky Educational Association is commendable and every trustee in this county should attend the meeting of the Association at Louisville, April 30. Our county and Circuit Court clerks now have their Associations as do the Sheriffs, Circuit and County Judges, County and Commonwealth's Attorneys. They have found it advantageous to meet and discuss among themselves the problems common to them all, planning legislation and administrative reforms and adopting, as far as may be, a desirable uniform system. If it is important that these officials should meet annually for official conferences, how much more vitally important is it that the men entrusted with the control of our common schools should work out their problems in concert. The State Superintendent has notified the people of Kentucky that at last the success or failure of his administration will depend upon the kind of men they elect as trustees and how they account for themselves in the administration of the local school affairs. Here then, is no small measure of responsibility assumed.

Each local board encounters its peculiar embarrassments and problems, but the chances are that when the trustees go to that meeting, they will find there someone, who has met and solved those very problems, while they can give like aid to others. There are questions of school legislation to be considered at the association meeting. The trustees can bring into their consideration the trustee's view-point and that of his constituency, to supplement and modify the professional aspect, as it is presented to the teacher and the superintendent.

There is this helpful exchange of experiences; but there is still the better part, that of revitalized interest to be acquired by contact with others engaged in the same work, and listening to addresses by school experts. We hazard the expectation that every trustee who

attends the K. E. A. will return home enthusiastic over his work, feeling that his is an office to be proud of, and instead of the gratuitous service he performs being a burden in the future, it will be his pleasure.

As for the attendance of the teachers, we can only add that while the average wage of the teachers in Kentucky is not what it ought to be, we have little sympathy for the teacher who has not enough professional interest and spirit to attend a professional gathering and so help himself.

"Uncle Rube" to Repeat

Such plays as "Shoreacres," "The Old Home Stead," and "Uncle Rube" with their homely philosophy, their humor, and their clear portrayal of picturesque country life of "Way Down East," always appeal to the human sympathy of an audience and move them both to laughter and to tears. "Uncle Rube" was successfully given by a local company both here and in Pineville.

At the request of a large number of persons who did not get to see the initial performance, this delightful rural comedy-drama will be repeated at Union College Chapel Monday February 17.

Victorian Serenaders

The Victorian Serenaders gave the third number of the L. cent course here last Saturday evening and their entertainment was very pleasing and highly enjoyed. There was greater variety in this entertainment than any previous and the most critical could not have been otherwise than pleased by some one of the numbers it met by all.

Sunday evening at the M. E. Church they gave a Sabbath Concert at which no admission was charged, which was enjoyed by a crowd which thronged both the auditorium and the Sunday School room even to standing room. Only religious subjects and sacred music interspersed with one or two classical pieces were given and this entertainment was as high class and as greatly enjoyed as their regular performances.

It is their custom to give these Sunday Concerts in every town in which they remain over Sunday. These bring out the purpose of the lyceum work and makes a distinction between this and the ordinary show.

To many people all traveling entertainers are just "show people," and are all classed alike regardless of the line of their work. In these lyceum numbers we are glad that both the performances and the performers are of a different class from the "show people" who often visit our city, and we welcome such entertainments as being elevating and educational.

Following was the program rendered Sunday evening at the M. E. Church:

Black's Pulmonic Syrup

The New Remedy For

Tuberculosis & Bronchitis

Birmingham, Ala., Jan. 6, 1913.

To whom It may Concern:

I was pronounced to be in the last stage of tuberculosis when Dr. W. F. Black first called on me. Several months ago I was having hemorrhages lasting several hours each time, and was sinking fast. I had been given up by other physicians, when Dr. Black began his treatment. After two or three treatments he succeeded in stopping the hemorrhages. I had a very bad cough and got little or no rest. My cough also began to get better and finally left me entirely. My family as well as myself, give Dr. Black credit for saving my life.

During the past few days I have had Dr. C. M. Rudolph and Dr. Joe G. Moore, prominent physicians of Birmingham, Ala. make a thorough examination, and they state that I have now no lung trouble.

I would consider it a pleasure to answer any communication regarding myself, especially if I can be the means of helping others by telling them what Dr. Black's Medicine has done for me.

My address is 224 Oakland Ave., Birmingham, Ala., and I can be seen there at any time, and I would be glad to give anyone a personal interview. (Signed) Mrs. R. L. NEESE

Subscribed and sworn to before me this, the 15th day of January, 1913. JAS. M. RUSSELL, Notary Public.

My commission expires April, 1914.

REV. CHAS. SAGER SAYS
Ma. C. A. ABBOTT, August 21, 1909.
60 Ann St., New York City.
Dear Sir: I have known for over 40 years of the effects of Wilson's Kidney (Wilson's Preparation of Hypophosphites and Biotin) in cases of pulmonary trouble. At this point I will say to you what you have not before known of; that 40 years since, while I was a resident of N. Y. City, I was severely ill with lung trouble. Physicians said I was a consumptive and my family physician told my wife that he thought I could not recover. My attention was directed to the Wilson Remedy, which I used with splendid effect. I have been on my feet and at work ever since. Your truly,

PRESENT DAY EMANCIPATION

The Drudgery of Farm Life a Thing of the Past.

KEEP THE BOYS AT HOME.

Make Them Industrious, Thoughtful and Independent and They Will Want to Stay--The Corn Club is Best Agent in Keeping From the City.

Gradually through the onward march of the centuries mankind has learned that slavery, the buying and selling of human beings, doesn't pay. Mankind has learned that no human being develops to its highest and best unless it is free. It must know and feel that it is constructing its own marvelous destiny.

The child doing almost meaningless chores, the boy slaving the hot summer day through for his father, the girl at work in the garden for the benefit of the family, are one and all in a measure enslaved. Of course everything in the child's life cannot be made easy and pleasant, but to force the child to feel that he or she is the physical slave to the family interest must hurt and dwarf its growth.

Go out into the country when the vacation sunshine is making vegetation tremble in its eagerness to grow and chat with some farmer's son, a little fellow still in the grades. If you should ask him about the future he is almost sure to say enthusiastically, "I'm going to town to work the very first chance I get. I'm tired--dead tired--of the farm all right."

Why does he say it? Why does he believe he will be happier in the city than in the country? He says it and believes it because he has never got anything more than his "board and keep" out of all the early rising and hard work he has known.

Wherever the boy has had an opportunity to grow a crop of his very own he has shown that he is industrious, painstaking, thoughtful and mentally alert. Under such conditions he is a free man, working out his own prob-

AN EMANCIPATED BOY

lem, earning his own money and growing mentally, as any free agent must. This is not a fancy or the spin theory trying to set aside the accumulated wisdom that the ages have striven to give us in the rearing of the youth of our land. It is the experience that a few short years in the boys' corn clubs has given us. It has shown us that boys, mere lads of ten years, who have worked listlessly for their fathers in fields that produced at best forty or fifty bushels of corn to the acre, can be transformed into wide awake youngsters producing from 50 to 100 bushels of good corn to the acre.

Let the children be freed, not because their labors have been too heavy, but that they may find themselves in a larger and finer method and womanhood, that will make our country life into something better than it ever has been in the past.

Breeding Tells.

An expert in corn judging was looking over a county exhibit to select the best ten ears. He had inspected the display carefully twice, when he hesitated and looked puzzled. He started to speak, but stopped and examined critically two piles of ten ears each which were merely known to him by their tag numbers. At last he touched the two piles and said: "I am going to hazard an opinion. These two piles of corn are Johnson county white, and they have been grown from the same lot of seed corn." Again he inspected the corn in both piles, while the few people in the room watched him with increasing interest. He smiled as he again began to speak. "Yes," he said, "I am absolutely certain of my first two statements, and I am going to make a third. The seed corn from which both of these exhibits were grown was not brought from a distance, but was selected and grown by an expert somewhere in their neighborhood."

Several of the bystanders laughed at such a sweeping statement. When the prizes had been awarded and the notebook which held the names and numbers of the exhibits had been consulted it was found that the corn had been grown by brothers. The seed had been grown by their father, who had been a student of seed corn for eight or ten years.

IF THE FARMER IS UNWILLING TO HANDLE SCHUB STOCK OR RAZOR BACKED HOGS HE SHOULD ALSO BE UNWILLING TO GROW SCHUB CORN.
